

CTO & CHIP Vall' Academy 2024

Dear friends,

The CTO & CHIP Vall' Academy is reaching its 6th year since its birth, with several workshops each year, more than 25 international experts, more than 150 attendees. Those who have attended know well that this is not just another meeting...

We have maintained a very PRACTICAL hands-on approach, with HUMBLE face to face discussion and the greatest INTERNATIONAL EXPERTS.

Everything can be ASKED!

Every strategy can be QUESTIONED!

Everyone is here for both, LEARNING & TEACHING!

The 2024 edition includes 3 of the best international experts that also represent the future in the CTO & CHIP field... Don't miss it!!!

SAVE THE DATES!

Dr. Almed ElGuindy

22nd & 23rd February

Dr. ElGuindy is a Consultant Cardiologist and Chief of the Department of Cardiology at the Aswan Heart Centre – Magdi Yacoub Foundation. He also currently serves as the Clinical Deputy Director of Research at the Magdi Yacoub Foundation. He treats adult patients with various cardiac disorders and specializes in Interventional Cardiology with special interest in complex coronary interventions, chronic total occlusions, transcatheter aortic valve implantation (TAVI), coronary physiology, and intracoronary imaging.

Dr. Pierfrancesco Agostoni

24th & 25th June

Dr. Agostoni is a cardiologist working in the HartCentrum of Ziekenhuis Netwerk Antwerpen (ZNA), campus Middelheim, in Antwerp, Belgium. His main current focus is percutaneous interventions in their broad spectrum, with specific focus on complex coronary interventions, including mainly chronic total occlusions, and transcatheter treatment of structural heart disease, including mainly transcatheter aortic valve replacement. He is also a member of the EuroCTO Board from 2023

Dr. Anja Øksnes

30th Sept & 1st October

Dr. Anja Øksnes is an Interventional Cardiologist at the Haukeland University Hospital, Bergen in Norway. Her expertise is in CTOs, as well as CHIP, intravascular imaging, TAVI, and research. Currently running an international TRIAL on Complex CTO (InvestCTO study). She is also a member of the EuroCTOclub, EAPCI and 4C
